

## Befestigung

- + FR 777 Differenzial-Kulissenauszug am Korpus lt. Einbauzeichnung 1,1a und **Bohrbild 1b** befestigen.
- Wichtig:** verwenden Sie am hinteren Befestigungspunkt von FR 777, wegen der hohen Belastbarkeit (200 kg), unbedingt M6 Schrauben (DIN 931 o. DIN 7985A) und Einschlagmuttern.
- + Gegenführung am Korpus lt. Einbauzeichnung 2, 2a und **Bohrbild 2b** befestigen.
- + Adapter am Auszugsmodul lt. Einbauzeichnung 3, 1a und **Bohrbild 3b** befestigen.
- + U-Profil am Auszugsmodul lt. Einbauzeichnung 4, 2a und **Bohrbild 4b** befestigen.

## Mounting

- + FR 777 Progressive-Action Pantry-Pullout Drawerslide mounts in cabinet as per drawing 1,1a and according to the **drill-pattern 1b**
- Important:** It is essential, due to the high weight capacity of 450 lb, that on the back mounting points M6 screws (DIN 931 or 7985A) and matching insert-nuts are being used.
- + The Top Guide mounts as per drawing 2, 2a and the **drill-pattern**
- + The Adapter mounts as per drawing 3, 1a and the **drill-pattern 3b**
- + The U-Profile of the Top Guide mounts as per drawing 4, 2a and the **drill-pattern 4b**

## Installation

- + The following adjustments should already be pre-adjusted:  
Please check before inserting slide-out unit that the safety-clip on the U-profile of the Top Guide is open (Illustration A) and the angle-adjustment is all the way down (Illustration B). Also check that the Allen Head setscrews are backed out far enough (Illustration B).
- + Insert the slide-out unit all the way to the end stop.
- + Close safety clip on the U-profile of the Top Guide (Illustration A).
- + Inbusschrauben für die Adapter-Fixierung (Fig.B) eindrehen, ist gleichzeitig auch Seitenverstellung.
- + Winkelverstellung am FR 777 (Fig. B) einstellen.

## Zu beachten:

- + Do not lubricate any part of the slide at any time !

## Important:

- + Do not lubricate any part of the slide at any time !

## Options

- + Easy-close Dämpfungssystem Art.Nr. 000003430 consisting off ( 6200519 + 520, 8300004 + 05, 620516, 830001 )
