James Martin Vanities is proud to announce our partnership with Silestone Quartz.

Silestone is a division of the Cosentino Group, a global family-owned company which produces and distributes high value innovative surfaces for architecture and design.

With the involvement of its customers and partners, this leading company imagines and anticipates design solutions which bring value and inspiration to people's lives. This goal is made possible by pioneering brands which are leaders in their respective segments such as Silestone®, Dekton®, and Sensa by Cosentino®. Technologically advanced surfaces which allow create unique spaces and designs for the home and public spaces.

The Cosentino Group currently distributes its products and brands in more than 80 countries, from its headquarters in Almeria (Spain). Cosentino is present in 32 countries, with its own facilities in 29 of them.

Silestone® by Cosentino, world leading brand for quartz surfaces, is a material made of 90% natural quartz. Silestone® surfaces are highly stain, impact and scratch resistant as well as having a low liquid absorption rate. This material also features exclusive bacteriostatic properties for determined colors, numerous guarantees and certifications, and is supplied with the high level of service, quality and responsibility which is shared by all Cosentino Group products.

Silestone® is manufactured in over 90 colors, three textures and various formats making it very versatile; it can even be applied in large, joint-free pieces. It is the perfect material for use in a great many applications in kitchens and bathrooms as well as for laboratories, hospitals, hotels, restaurants and other professional uses.

In 2017, Silestone® once again showcased its leadership in the quartz surface industry, presenting the innovative technology N-Boost.

N-Boost modifies the surface of the material at a molecular level, thus enhancing further still the excellent technical and aesthetic features of the material. This innovative development, whose patent is owned by Cosentino, facilitates the easier cleaning and maintenance of Silestone® countertops. N-Boost also achieves a greater intensity of color and increases the level of surface brightness.

Silestone® is manufactured with HybriQ® Technology. HybriQ® is a pioneering and patent-registered technology from Cosentino for the manufacturing of Silestone®. This new high-performance blend of premium minerals, quartz, and recycled materials is produced through a sustainable manufacturing process using 99% recycled water and 100% electric energy from renewable sources.
