INSTALLATION MANUAL

Artec Pro™ 2 Function Commercial Style Kitchen Faucet

KPF-1603

Congratulations on the purchase of your new Kraus[®] plumbing fixture!

Please keep the box and packaging materials until your product is completely installed. If you have any questions, require technical assistance or have any problems with your product:

DO NOT RETURN TO STORE

**Please contact our Customer Service Team
1-800-775-0703 / customerservice@kraususa.com**

Have the model number available and retain a copy of your receipt with purchase date for reference.

If for any reason this product does not meet your expectations, please be sure to repack this product in the original box and packaging material to avoid damage during transit.

STOP

Prior to Installation:

- Make sure you have all necessary parts by checking the diagram and parts list. If any part is missing or damaged, please contact Kraus® Customer Service at 800-775-0703 for a replacement.
- Read all instructions and safety warnings and ensure you have all tools, parts, and equipment necessary for a safe installation.
- Turn off the hot and cold water supply at the angle stops and turn on the old faucet to release any built up pressure. Remove existing faucet.
- Pre-drilled hole size requirement: 1 3/8" (min)
- Max countertop thickness: 2 3/8"

For technical assistance or replacement parts, please contact Kraus Customer Service and one of our representatives will be happy to help:

Toll-Free: 800-775-0703 or Customerservice@kraususa.com

- B1. Seat
- B2. Rubber Washer
- B3. Metal Washer
- B4. Mounting Nut
- B5. Screw
- C. Hex Wrench

Faucet Dimensions

Installer Tip:

Shut off main water supply before installing new faucet.

Step 1. Remove washer and lock nut

Shut off the water supply. Remove the old faucet. Clean the mounting surface. Remove the mounting hardware (B) from the faucet body (A).

Step 2. Installing the faucet

Insert the faucet through the hole in the sink or countertop. From underneath the sink, attach the seat (B1), rubber washer (B2), metal washer (B3), and nut (B4). Lock nut (B4) into position by tightening screws (B5).

Step 3. Making the water supply connections

Push the quick connector (2) firmly upward and attach it to the receiving block (1). Pull down moderately to ensure the connection has been made.

If it is necessary to remove the quick connector (2), squeeze the tabs on the hose and then pull down to disconnect.

Step 4. Making the water supply connections

Thread the nut (1) on the supply line onto the outlet of the water supply valve and tighten with a wrench. Do not overtighten.

NOTE: Please make sure filter washers are installed before connecting to the main valve.

Step 5. Flushing and checking for leaks

Pull the hose assembly out of the spout and remove the spray head by unscrewing it from the hose in a counterclockwise direction. Be sure to hold the end of the hose down into the sink and turn the faucet on to the warm position where it mixes hot and cold water.

Flush the water lines for one minute. This flushes away any debris that could cause damage to internal parts. Check for leaks.

Reinstall the spray head by hand tightening it back onto the spray hose.

NOTES:

1. Do not lose the rubber washer (1) when installing the sprayer back on.
2. The magnet end marking with a black dot should be toward the hose for correct magnet installation.

Step 6. Flush faucet

To activate the spray mode, simply press the handle (1) located under the spray head.

Replacement Parts

**Denotes faucet component color options:

CH - Chrome

SFS - Spot Free Stainless Steel

MB - Matte Black

BG - Brushed Gold

SB - Black Stainless

SBBG - Black Stainless/Brushed Gold

MBSB - Matte Black/Black Stainless

SFSB - Spot Free Black Stainless

BGMB - Brushed Gold/Matte Black

SFSMB - Spot Free Stainless Steel/Matte Black

SFACB - Spot Free Antique Champagne Bronze

BL - Black

WH - White

Troubleshooting

If you have followed the instructions carefully and your faucet still does not work properly, take the following corrective steps:

PROBLEM	CAUSE	ACTION
Leakage under the handle.	Bonnet nut (12) has come loose.	Remove the index (14.3). Loosen set screw (14.2) with hex wrench (14). Remove the handle (14.1). Unscrew cap (13) (by hand only). Tighten bonnet nut (12) with an adjustable wrench
The aerator has an irregular or reduced water flow.	The aerator is dirty or misfitted.	Remove the aerator and check for debris. Ensure that the rubber washer is properly installed.
The water pressure is low.	<p>The connector underneath the deck is clogged with debris.</p> <p>The aerator is clogged.</p> <p>The screen filters in the hose connectors are dirty.</p>	<p>Turn off the water supply and disconnect the connector / aerator. Unscrew the connector / aerator and clean under running water. Screw the connector / aerator back. Test water flow. If water pressure is still low then replace the connector / aerator.</p> <p>Turn off the water supply at the water valves and unscrew the hose connectors from water supply lines. Clean the screens in the water lines with hot water, removing any debris or calcium build up.</p>

Faucet - Lifetime Limited Warranty

Kraus[®]USA Plumbing, LLC ("Kraus") extends this warranty to the original purchaser for personal household use of the Faucet when purchased from an authorized Kraus dealer and in the location of original installation. This warranty is non-transferable.

Kraus warrants the structure and finish of the Faucet to be free from defects in material and workmanship under normal usage for as long as the original purchaser resides in the residence in which the Faucet was first installed.

Kraus warrants the Faucet's sprayhead assembly (including the engine, aerators, structure, restrictors, back flow preventers, sprayer hoses, braided supply line hoses which encompasses nylon, silicon and stainless steel) of the product to be free from defects in material and workmanship under normal usage for a period of one (1) year from the date of purchase.

Kraus warrants the Faucet's cartridge to be free from defects in material and workmanship under normal usage for a period of five (5) years from the date of purchase.

Any product reported to the authorized dealer or to Kraus as being defective within the warranty period will be repaired or replaced with a product of equal value at the option of Kraus.

Commercial Warranty

Kraus USA Plumbing, LLC ("Kraus") warrants its Products for a period of one (1) year to commercial purchasers of Products used in industrial, commercial and business applications.

Care and Cleaning Instructions

Certain cleaning products may cause damage to a Product's finish and use of the following on the Product will void this warranty:

- Abrasive cleaners such as powders, bleach, ammonia, alcohol or chorine
- Abrasive pads, steel wool or wire brushes

What is Not Covered

This warranty does not cover Products that were discontinued when purchased or display Products, whether such Products were purchased at discount outlets, unauthorized dealers, and/or sold on clearance. This warranty does not cover any free gifts included with purchase.

This warranty does not cover damage resulting from neglect, misuse (including use for an unintended application), abuse, carelessness, accident, hard water or mineral deposits, exposure to corrosive materials, improper maintenance, alteration of the Product, or failure to follow care, cleaning or installation instructions enclosed with your Product. Kraus recommends that all Kraus Products be installed by a fully licensed and insured trade professional with experience in the installation of bathroom and/or kitchen manufactured goods.

How to Make a Warranty Claim

Kraus USA Plumbing, LLC
12 Harbor Park Drive
Port Washington, NY 11050
516-801-8954
Partnersupport@kraususa.com

In requesting warranty service, please be ready to provide your proof of purchase and a description of the problem. Shipping charges will be covered for the first (1) year of the warranted replacement part or product (HI, AK, and Puerto Rico shipping charges may apply). International shipping fees are not included.

Limitation on Duration of Implied Warranties

Please note that some states/provinces (including Quebec) do not allow limitations on how long an implied warranty lasts, so the below limitations may not apply to you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, ANY IMPLIED WARRANTY, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND OF FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED TO THE STATUTORY PERIOD OR THE DURATION OF THIS WARRANTY, WHICHEVER IS SHORTER.

Limitation of Special, Incidental or Consequential Damages

Please note that some states/provinces (including Quebec) do not allow the exclusion or limitation of special, incidental or consequential damages, so the below limitations and exclusions may not apply to you. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THIS WARRANTY DOES NOT COVER, AND KRAUS USA PLUMBING, LLC SHALL NOT BE LIABLE FOR, ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (INCLUDING LABOR CHARGES TO REPAIR, REPLACE, INSTALL OR REMOVE THIS PRODUCT), WHETHER ARISING OUT OF BREACH OF ANY EXPRESS OR IMPLIED WARRANTY, BREACH OF CONTRACT, TORT, OR OTHERWISE.

This warranty gives you specific legal rights, and you may also have other rights which vary from state/province to state/province.
