KITCHEN FAUCET

BEFORE YOU BEGIN YOUR INSTALLATION

Shut off
water supply

Flush hot and cold
water supply lines

Required tools

Installation by License
Professional Plumber

Flush the water pipe
before installation

Drawings are for
reference only

Do not disassemble
the body

FAUCET INSTALLATION

Connect the braided
supply hoses to the faucet,
hand tight firmly.

Ensure there is a Ø35mm
through-hole on the kitchen
counter. Remove the mounting
nut (A) and washer (B) from the
threaded shroud (C).

Position faucet on the installation
surface. Fit flexible hoses through
hole on countertop or sink.

Slide washer and thread the
mounting nut onto threaded
shroud. Turn faucet to desired
handle position. Securely tighten
clamp screws (E)

Before connecting supply hose,
flush supply valves to clear any
debris. Place a bucket
underneath valves and run
water for 5 to 10 seconds. Turn
water off.

Connect hot and cold water
lines to the inlet pipe and tighten
with a wrench until snug.
Do not over tight.

CARE AND CLEANING

Clean the faucet frequently using mild soap or an on-abrasive cleaner and then quickly rinse with water and dry with soft cloth only.

Using abrasive cleaners, solvents, acid cleaners or any scrubbing detergent, polisher or scraper will damage the finish and void the warranty.

ROBINET DE CUISINE

AVANT DE COMMENCER VOTRE INSTALLATION

Coupez l'alimentation en eau

Videz les conduites d'eau chaude et froide

Outils nécessaires

Installation par un plombier professionnel accrédité

Videz la conduite d'eau avant l'installation

Les illustrations ne sont données qu'à titre indicatif

Ne pas démonter le boîtier

INSTALLATION DU ROBINET

Raccordez les tuyaux d'alimentation tressés au robinet et main bien serrée.

ENTRETIEN ET NETTOYAGE

Nettoyez fréquemment le robinet à l'aide d'un savon doux ou d'un nettoyant non abrasif, puis rincez-le rapidement à l'eau et séchez-le avec un chiffon doux.

L'utilisation de nettoyants abrasifs, de solvants, de nettoyants acides ou de tout autre détergent à récurer, polisseur ou grattoir endommagera la finition et annulera la garantie.
