

MOBILE CARTS & FLOATING SHELF SPECIFICATIONS

STAINLESS STEEL CARTS

Engineered for convenience...

For entertaining or extra workspace, Denver kitchen carts are the “portable answer” whether you’re working indoors or at the barbecue. Constructed of commercial grade stainless steel, these mobile countertop workspaces offer the flexibility to be in the center of prepping or entertaining or “tucked” out of sight when not required. There are two sizes: The Kitchen Cart measures 30”W x 22”D x 34”H while the smaller “Cocina” model is 27”W x 18”D x 34”H.

Both models are available with or without stainless steel tops.
