INSTALLATION MANUAL

Kore Workstation Stainless Steel Dual Mount Kitchen Sink

KWT300-32

Prior to Installation:

- Make sure that you have all necessary parts by checking the parts list. If any part is missing or damaged, please contact Customer Service for a replacement
- Inspect the sink prior to installation to make sure that it has not been damaged or during shipping
- Use the cut-out template provided by Kraus
- Observe all plumbing and building codes according to your state requirements

The step-by-step guidelines in the installation instructions are a general reference for installing a Kraus sink. Should there be any discrepancies, Kraus cannot be held liable. It is recommended to install all Kraus products by hiring a licensed professional.

Dimensions:

Model #: KWT300-32

Sink Dimensions: 31 1/4" x 20 1/2" x 9"

Min Cabinet Size: 33"

Topmount Installation

Step 1. Position Template

- Check the cut-out template against the actual sink to ensure a proper sized cut-out.
- Place the cut-out template in the desired location on the countertop.

NOTE: Make sure clearance is suitable for backsplash, faucet and plumbing for the sink.

Step 2. Trace Template

- Trace template on countertop with a pencil.

Step 3. Cut Countertop

- Cut the opening in the countertop by carefully following the traced line.

NOTE: Please use the appropriate saw that best fits your countertop material.

Step 4. Attach Mounting Hardware

- Attach mounting hardware to the prongs protruding from the underside of the sink rim.
- Make sure the hooked side of the mounting clip is facing away from the sink.

Step 5. Apply Silicone or Plumber's Putty

- Clean and dry the surface around the opening of the sink.
- Turn the unit upside down to apply sealant. Apply silicone-based sealant (not included) underneath the edge of the sink.

Step 6. Secure Sink to Countertop

- Insert the sink into the opening, check the alignment of the sink to the cutout in the countertop and press firmly.
- Tighten the screws in the front of the sink, followed by the ones in the back and on the sides of the sink.
- Remove excess silicone-based sealant.
- Allow sealant to set for 30-60 minutes.

Step 7. Install Plumbing Fixtures

- Connect drain to sink. Connect trap to drain. Connect water supply connections to faucet according to manufacturer's instructions.
- Run water into sink and check for leaks.

Undermount Installation

Step 1. Determine reveal type

- Use scissors to cut along the line of the paper template for your desired reveal type (Positive or Flush Reveal)

KRAUS Recommended Installation Type

3/8" Positive Reveal

Flush/Zero Reveal

Step 2. Position template

- Check the cut-out template against the actual sink to ensure a proper sized cut-out.
- Place the cut-out template in the desired location on the countertop.

NOTE: Make sure clearance is suitable for backsplash, faucet and plumbing for the sink.

Step 3. Trace Template

- Trace template on countertop with a pencil.

Step 4. Cut countertop

- Cut the opening in the countertop by carefully following the traced line.

NOTE: Please use the appropriate saw that best fits your countertop material.

Step 5. Set up mounting brackets

- Turn countertop over and align sink with countertop. Decide location for mounting brackets.
- Mounting holes should be 1/2" from edge of sink.

Step 6. Drill hole in countertop

- Drill 3/8" diameter x 1/2" deep hole in the countertop.

Step 7. Install anchors

- Insert anchors into drilled holes and lightly tap with a hammer until flush.

Step 8. Secure sink to countertop

- Use a bead of silicone (or preferred adhesive) around the rim of the sink. Check the alignment of the sink to the cutout in the countertop. Place sink over cutout hole and press firmly.

Step 9. Attach mounting hardware

- Attach mounting hardware to secure bowl. Remove excess sealant from inside lip.
- Allow sealant to set for 30 - 60 minutes.

NOTE: Use acetone or rubbing alcohol to remove any excess sealant.

Step 10. Install plumbing fixtures

- Connect drain to sink. Connect trap to drain. Connect water supply connections to faucet according to manufacturer's instructions.
- Run water into sink and check for leaks.

Maintenance

Clean your sink on a regular basis with warm soapy water. Rinse the sink after using cleaning products. Wipe the sink surface with a soft cloth to remove any liquid residue. Do not cut food directly on the surface of the sink. Do not leave sharp objects on the surface of the sink for an extended period of time. Do not use abrasive cleaning products, sanding tools, steel wool or bleaching products.
