Read installation and maintenance instructions thoroughly before installation. Inspect your sink for any noticeable damage before installation. Check all local applicable plumbing and building codes. These instructions are based on application to composite material or solid surface countertop installation only; countertop application to stone, marble, granite or butcher-block should be referred to experienced countertop fabricator for custom installation.

VIGO Farmhouse series sinks are individually hand-crafted and VIGO suggests using experienced and professional installers only. For custom cutting of countertop and installation of the actual sink, on-site installation is also recommended. Acceptable variances are approximately 1/8" of an inch. Alignment to cut-out and precise application and trimming of any adhesive essential are critical to a superior fit and finished look. Please take extra care in this regard. VIGO Farmhouse series sinks require custom-ordered cabinets. Consult your cabinet dealer. VIGO does not accept any liability for damage to countertop, sink fixture, faucets or personal injury during installation. Warranty is void if installation instructions are not followed.

Lee detenidamente las instrucciones de instalación y mantenimiento antes de la instalación. Inspeccione su fregadero para detectar cualquier daño notable antes de la instalación. Verifique todos los códigos locales de plomería y construcción. Estas instrucciones se basan en la aplicación a la instalación de material compuesto o encimera de superficie sólida únicamente; La aplicación de la encimera a la piedra, el mármol, el granito o el bloque de madera se debe referir a un fabricante experimentado de encimeras para una instalación personalizada.

Los fregaderos de la serie Vigo Farmhouse están hechos a mano individualmente y VIGO sugiere usar solo instaladores experimentados y profesionales. Para el corte personalizado de la encimera y la instalación del fregadero real, también se recomienda la instalación in situ. Las variaciones aceptables son aproximadamente 1/8 pulgada. El alineación con el recorte y la aplicación precisa y el recorte de cualquier sellador adhesivo son fundamentales para un ajuste superior y un aspecto acabado. Por favor, tenga mucho cuidado en este sentido. Los lavabos de la serie Vigo Farmhouse requieren armarios a medida. Consulte a su distribuidor de gabinetes. VIGO no asume ninguna responsabilidad por daños en encimeras, accesorios de fregaderos, grifos o lesiones personales durante la instalación. La garantía no es válida si no se siguen las instrucciones de instalación.

Installation VIGO Caution: behind and Typical Typical Above Contact damaged Pour votre protection, assurez-vous d'utiliser les outils appropriés et de toujours porter des accessoires de sécurité. Lisez les instructions attentivement pour l'installation et l'entretien avant la mise en place de l'évier. Inspectez-vous éviter afin de détecter tout dommage avant son installation. Vérifiez bien tous les règlements locaux de plomberie et de construction en vigueur. Ces instructions sont basées sur l'installation de comptoirs en matériaux composites ou de comptoirs faits d'une surface solide seulement. Les comptoirs faits à partir de pierre, de marbre, de granit ou d'un bloc de boucher devraient être pris en charge par un fabricant de comptoir expérimenté pour leur installation personnalisée.

Los colecciones de lavabos de estilo campesino VIGO son hechas a mano individualmente y VIGO le sugiere de no levo apelo qu'à des instalateurs professionnels et expérimentés pour leur mise en place. L'installation sur place est aussi recommandée pour le découpe et pour le positionnement sur mesure de l'évier. Une variation acceptable des mesures est d'environ 1/8 po. Un bon alignement, un découpage précis et l'ajustage du sellant adhésif sont primordiaux pour donner un aspect soigné au fini de l'évier et pour un ajustement de grande qualité. Il important que vous preniez des précautions supplémentaires à cet égard. Vérifiez bien avec votre marchand d'armoires puisque les collections d'éviers de style campesino de VIGO nécessitent des armoires faites sur mesure. VIGO n'accepte aucune responsabilité pour tout dommage au comptoir, à l'évier et à ses composants, aux cabinets ou pour toute blessure personnelle survenue lors de l'installation du produit. La garantie sera annulée si les instructions pour la mise en place n'ont pas été suivies.

Installation sur le comptoir

All installation types need to allow room for faucet installation. Ensure adequate clearance behind the sink for any faucet and backplash, as well as full range of motion for faucet spouts and handles.
Todos los tipos de instalación deben dejar espacio para la instalación de la llave. Asegure un espacio libre adecuado detrás del fregadero para cualquier grifo y placa para splashbacks, así como un rango de movimiento completo para los grifos y manijas del grifo.
Tous les types d'installation doivent laisser de la place pour l'installation du robinet. Assurez-vous qu'il y ait suffisamment d'espace derrière le lavabo pour le robinet et le dossier, ainsi que pour les mouvements et les poignées de tous les mouvements.

Typical undermount installation with 1/4" reveal recommended / Se recomienda la instalación típica debajo de la superficie con 1/4 "de revelado / L'installation typique sous le comptoir avec 1/4 "révèle recommandé

Top View / Vista Superior / Vue de dessus

Side View / Vista lateral / Vue de côté

1

STEP 1 / PASO 1 / ÉTAPE 1

1) Prepare the sink base cabinet

- Farmhouse sinks require custom-ordered sink base cabinets with a front cutout to accommodate a 10" deep sink.
- Build structural supports on the inside frame of the sink base cabinet.
- The structural supports must support the weight of the sink and any attachments such as garbage disposals.
- When the sink is placed onto the cabinet support, make sure the top of the sink is evenly flush against the bottom of the countertop.
- Allow clearance for water supply lines and drains or garbage disposals, as necessary.

1) Preparar el mueble base del fregadero

- Los lavabos de la base de campo requieren gabinetes de base de lavamanos de orden personalizado con un recorte frontal para acomodar un lavamanos de 10".
- Construya soportes estructurales en el marco interior del gabinete de la base de lavamanos.
- Los soportes estructurales deben soportar el peso del lavamanos y cualquier accesorio, como la eliminación de basura. Cuando coloque el fregadero en el soporte del gabinete, asegúrese de que la parte superior del fregadero esté nivelada contra la parte inferior de la encimera.
- Deje espacio para la línea de suministro de agua y los desagües o la eliminación de basura, según sea necesario.

1) Préparez L'armoire De Base De L'évier

- Les lavabos de style campagne nécessitent des armoires de base faites sur mesure et avec un découpage du devant accommodant un évier d'une profondeur de 10 po.
- L'encadrement intérieur de l'armoire de base doit avoir un support structural interne.
- Ce dernier doit pouvoir supporter le poids de l'évier et de toutes ses composantes comme un broyeur à déchets par exemple.
- Assurez-vous que le haut de l'évier soit appuyé uniformément contre la base du comptoir après qu'il ait été déposé sur l'armoire.
- Calculez l'espace nécessaire pour les conduits d'approvisionnement d'eau et les drains ou pour le broyeur à déchets, le cas échéant.

2

STEP 2 / PASO 2 / ÉTAPE 2

2) Make template and cutout

- Depending on the installation option, make proper cutout of the countertop.
- VIGO recommends a 1/4" reveal on 3 sides when installed undermount style.
- For a flush mount or above counter installation, cut countertop along with outside of sink profile.
- The front end of VIGO Farmhouse sinks are designed to be installed 3/4" extended out beyond the front end of the countertop. Cut countertop accordingly.
- No template is provided due to the custom nature of each application and installation. The actual sink is used as the template guide for each installation.
- After centering the sink and allowing for faucets and backslashes, use a pencil to outline the sink as your guide for the cutout, allowing for any reveal before the actual cutting.

2) Hacer plantilla y recorte

- Dependiendo de la opción de instalación, haga un recorte adecuado de la encimera.
- VIGO recomienda una revelación de 1/4" en los 3 lados cuando se instala bajo el estilo de montaje bajo.
- Para una instalación empotrada o sobre el mostrador, corte la encimera junto con el exterior del perfil del fregadero.
- El extremo frontal de Vigo más allá de la parte delantera de la encimera.
- Cortar la encimera en consecuencia. No se proporciona ninguna plantilla debido a la naturaleza personalizada de cada aplicación e instalación.
- El fregadero real se utiliza como guía de plantilla para cada instalación.
- Después de centrar el fregadero y permitir grifos y protectores contra respaldos, use un lápiz para delinear los fregaderos como guía para el recorte, permitiendo cualquier revelación antes del corte real.

2) Préparez le modèle et le découpage

- Préparez le découpage adéquat de votre comptoir selon votre type d'installation.
- VIGO recommande que l'évier surplombe de 1/4" de po sur les trois côtés lors d'une installation sous plan.
- Découpez le comptoir tout au long de l'extérieur de la silhouette de l'évier pour un évier encastré ou posé sur le comptoir.
- La partie avant des éviers de style campagne VIGO est conçue pour être installée à 3/4 de po au-delà de l'avant du comptoir.
- Découpez donc le comptoir en conséquence. Aucun modèle de découpage n'est fourni en raison du style sur mesure de chacune des installations.
- C'est l'évier en place qui sera utilisé comme modèle pour chaque installation.
- Après avoir centré l'évier et avoir laissé assez d'espace pour les robinets et le dossier, utilisez un crayon pour tracer l'évier et ainsi vous guider pour le découpage. Cela vous permettra ainsi de créer de l'espace pour les rebords avant la découpe finale.

3

STEP 3 / PASO 3 / ÉTAPE 3

3) Set the sink

- Set the sink on top of the cabinet or into the cabinet front cutout.
- Apply sealant if necessary as a gasket between the sink and cabinet.

3) Coloque el fregadero

- Coloque el fregadero en la parte superior del gabinete o en el recorte frontal del gabinete.
- Aplique sellador si es necesario como una junta entre el fregadero y el gabinete.

3) Placez l'évier

- Placez l'évier sur l'armoire ou dans la découpe du devant de l'armoire.
- Appliquez du scellant comme tampon entre l'évier et l'armoire, si nécessaire.

4

STEP 4 / PASO 4 / ÉTAPE 4

4) Install the countertop

- Carefully clean bottom of countertop and top flange of sink with denatured alcohol.
- Apply bead of silicone adhesive (not supplied) around the top edge of the sink.
- Place countertop onto the sink.
- Remove excess sealant from the lip of any surfaces with a cleaner recommended by manufacture of adhesive sealant.

4) Instalar la encimera

- Limpie cuidadosamente la parte inferior de la encimera y la brida superior del fregadero con alcohol desnaturalizado.
- Aplique un cordón de adhesivo de silicona (no suministrado) alrededor del borde superior del fregadero.
- Coloque la encimera en el fregadero.
- Elimine el exceso de sellador del borde de cualquier superficie con un limpiador recomendado por la fabricación de sellador adhesivo.

4) Installez le comptoir

- Nettoyez soigneusement le bas du comptoir et l'alle supérieure de l'évier avec de l'alcool dénaturé.
- Appliquez des gouttes d'adhésif silicone (non fourni) autour du bord supérieur de l'évier.
- Placez ensuite le comptoir sur l'évier.
- Enlevez tout le surplus de scellant du rebord de chacune des surfaces avec un produit nettoyant qui a été recommandé préalablement par un fabricant d'adhésif scellant.

Modern faucets and showers consist of very different materials to comply with the needs of the market with regard to design and functionality. To avoid damage and reclamations, it is necessary to consider certain criteria when cleaning. Be sure to avoid using abrasive materials while cleaning VIGO products.

CLEANING INSTRUCTIONS FOR FAUCETS AND SHOWERS

Please follow the instructions on your cleaning materials. In addition, pay attention to the following points:

- Clean the faucets and showers as needed and when required.
- The amount of cleaning product needed and the time the cleaner needs in order for effective cleaning to take place should be adjusted according to products; cleaning product should not be left on VIGO product longer than necessary.
- Clean regularly to prevent calcification.
- When using spray cleaner, spray first onto a cloth or sponge - never directly spray onto the sanitary tapware as drops could enter openings and gaps and cause damage.
- After cleaning, rinse thoroughly with clean water to remove any cleaner residue.
- Recommended cleaning solution for hard water and soap scum is to use 50/50 water and vinegar solution.

NEVER SPRAY
DIRECTLY
ON TAPWARE

SPRAY ONTO
SPONGE/CLOTH

CLEAN
REGULARLY

RINSE THOROUGHLY
WITH CLEAN WATER

CLEANING MATERIAL FOR FAUCETS AND SHOWERS

Acids are necessary ingredients of cleaning materials for removing lime, however, please pay attention to the following points when cleaning faucets and showers:

- Only use cleaning materials that are explicitly provided for this type of application.
- Never use cleaning materials that contain hydrochloric, formic or acetic acid, as they cause considerable damage.
- Phosphoric acid is also restricted as it can cause damage to the finish.
- Never mix any cleaning material with another.
- Never use cleaning materials that have an abrasive effect, such as powdered and industrial cleansers, scouring pads or micro fiber cloths.

Hydrochloric

Formic

Acetic Acid

Phosphoric

KITCHEN SINK LIMITED LIFETIME WARRANTY

VIGO

VIGO INDUSTRIES, LLC ("VIGO")
EFFECTIVE JANUARY 1, 2019

VIGO offers the following limited warranty on each of its KITCHEN SINK Products* (the "Product"). This warranty extends only to the original purchaser/end-user for personal household use and is not transferrable. For commercial use, additional limitations apply. VIGO warrants the Product to be free from defects in workmanship and materials under normal household use for the lifetime of the product by the original purchaser/end-user. Subject to the Warranty provisions below, any product reported to VIGO or an authorized dealer as being defective within the warranty period will receive replacement parts and/or troubleshooting assistance to correct the issue. If a replacement unit is deemed necessary by VIGO, the replacement will be made with the same model (or with a product of equal value). This warranty extends to the original purchaser/end-user and is not transferrable to a subsequent owner. Neither the distributor, authorized dealer, nor any other person has been authorized to make any affirmation, representation, or warranty other than those contained in this warranty. Products sold in "as-is" condition, closeouts, discounted, resale, return purchases or purchases made through non-authorized dealers are not covered under the terms of this warranty. Any affirmation, representation, or warranty other than those contained in this warranty shall not be enforceable against VIGO or any other person. VIGO reserves the right to modify this warranty at any time with the understanding that such modifications will not alter the warranty conditions applicable at the time of sale for the products in question.

LIMITATIONS

This warranty shall not apply to instances of incorrect operating procedures, breakages, or damages caused by fault through improper installation, carelessness, abuse, misuse, misapplication, improper maintenance, or alteration of the Product, as well as damage due to hard water, chemical or natural corrosion, accident, fire, flood, an act of God, or any other casualty. When cleaning, handling, and maintaining the Product, avoid abrasive cleaners, steel wools, and harsh chemicals as these will scratch, damage and/or dull the product and/or finish and void this warranty. The owner/end-user of the Product covered by the present warranty is entirely responsible for all labor costs, proper installation and any applicable plumbing or electrical wiring. VIGO neither installs nor supervises installation, nor hires contractors for this purpose. VIGO cannot be held responsible for any default, breakage, or damages caused thereby or resulting thereof, either directly or indirectly. The owner/end-user must provide requested images, photos, videos of the Product as described in the installation guide so that VIGO can properly troubleshoot and execute the warranty specified herein. All repair expenses and labor are the responsibility of the owner/end-user. This warranty does not apply to Products that have not been installed or operated in accordance with instructions supplied by VIGO and all applicable rules, regulations, and legislation pertaining to such installations. This warranty does not apply unless the VIGO Product is installed by a fully insured, licensed professional. VIGO strongly recommends that such licensed professional have experience in the installation of bathroom and kitchen products. Installation of certain products, including but not limited to glass products (i.e. shower doors and glass sinks) by an inexperienced person may result in glass breakage, and consequently may cause personal injury or death. VIGO is not liable for personal injuries or deaths to any persons or for any direct special, incidental or consequential damage, loss of time, loss of profits, inconvenience, incidental expenses, labor or material charges, or other costs resulting from the use of the Product or equipment pertaining to the application of the present warranty, or resulting from the removal or replacement of any product or element or part covered by this warranty.

EXCEPT AS OTHERWISE PROVIDED ABOVE, VIGO MAKES NO WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURCHASE OR COMPLIANCE WITH ANY CODE. VIGO cannot be held liable for any amount over and above the purchase price paid for the Product by the owner/end-user, contractor, builder, or other installation professional.

COMMERCIAL LIMITATIONS

In addition to the above conditions and limitations, the warranty period for the products installed for commercial applications or used in commercial ventures is ONE (1) year from the initial date of purchase by the owner/end-user, contractor, or builder from an authorized dealer. VIGO is not responsible for loss of use or profit under any circumstances. If the product is used as a display, the warranty period begins when the product is placed on display. This warranty gives the owner/end-user specific legal rights. The owner/end-user may also have other rights which may vary from one state or province to another.

WARRANTY CONDITIONS

In order to obtain the warranty provided, please contact

_____ will assist with troubleshooting and provide replacement parts as described above when the following conditions have been met: the failure is of the nature or type covered by the warranty; the user has informed VIGO of the nature of the problem during the warranty period; conclusive evidence (e.g. proof of purchase and images, video, etc.) is provided to the foregoing by the user proving that the failure occurred or was discovered within the warranty period. VIGO's warranty obligation shall be discharged upon tender of replacement parts or product replacement. The customer's refusal to accept the tender terminates VIGO's warranty obligations.

*Certain models are pending approval.
Certification may be ended by VIGO or certification agencies without notice.
