

# REV-A-SHELF®

## INSTALLATION INSTRUCTIONS

### BANDED WOOD LAZY SUSAN

#### TOOLS REQUIRED:

#### ESTIMATED ASSEMBLY TIME:

**15 MIN**

#### CARE AND MAINTENANCE:

Clean with a damp cloth and wipe parts dry.

#### Parts List

| No. | Description                           | Qty |
|-----|---------------------------------------|-----|
| A   | Sized Tray                            | 1   |
| B   | #8 x 1-1/4" Phillips Flat Head Screws | 4   |
| C   | Cover Cap                             | 1   |

\*Full circle and D-shape only

\*Shape will depend on unit purchased

**STEP 1**

Ensure tribase (back plate) is locked into correct position. You will hear a distinct click when locked into place. (See Figure 1).

**Note: Does not apply to full circle trays.**

**STEP 2**

Install the shelf by tilting it in a diagonal position, then ease it through the cabinet opening and place it against the cabinet floor (See Figure 2).

**STEP 3**

For full circle and D-Shape shelves rotate the shelf, using the pre-drilled hole, locate the first bearing mounting location and affix the shelf to the cabinet floor with (1) #8 x 1- 1/4" flat head screw (See Figure 3).

**Note: Because of the stop on D-Shape and Kidney shelves, apply pressure to the top of the shelf before rotating.**

For Kidney-Shape shelves, apply pressure and rotate the shelf until you see the first bearing mounting location by the bird's mouth then affix the shelf to the cabinet floor with (1) #8 x 1- 1/4" flat head screw (See Figure 4).

For **ALL** shelves repeat rotating until the remaining (3) #8 x 1- 1/4" flat head screws are installed, and the unit is secured to the cabinet floor.

**STEP 4**

Place the cover cap over the indicator hole (See Figure 5).
