

CLASSIC RECTANGLE without Center Bar PR1

Enclume racks are the ultimate quality,
design, strength and function.

Congratulations for owning one of the finest
Storage racks made.

**WARNING: READ ALL OF THE
INSTRUCTIONS BEFORE ASSEMBLING
AND USING YOUR RACK**

All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.

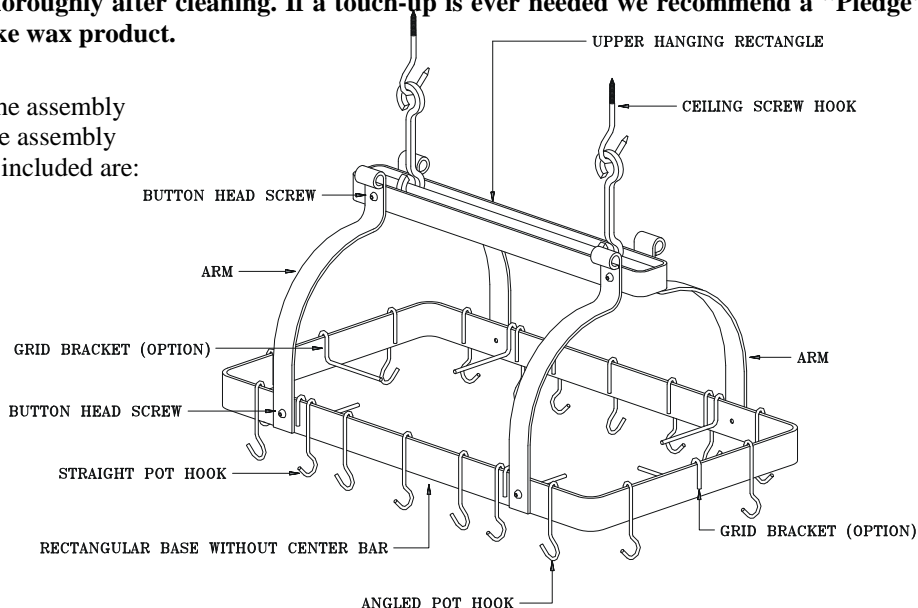

Enclosed you will find everything needed for the assembly and use of your storage rack. Two people make assembly and installation easier. The parts and hardware included are:

Hardware included:

- 2 – Ceiling Screw Hooks
- 8 – 3/8" x 1/2" Button Head Screws
- 1 – 7/32" Allen Wrench

Components included:

- 1 – Rectangular Base *without center bar*
- 4 – Arms
- 1 – Upper Hanging Rectangle
- 12 – Angled Pot Hooks
- 6 – Straight Pot Hooks
- 1 – Grid
- 6 – Straight Pot Hooks
- 6 – Grid Brackets

See reverse side for **ASSEMBLY AND INSTALLATION INSTRUCTIONS**

Limited Warranty: This product is warranted to be free of material defects for a period of five years from the date of purchase. Customer's exclusive remedy shall be the repair or replacement of the defective product and shall be subject to the following conditions: (1) notice of any defect is received by Enclume within the warranty period and (2) customer returns the defective product to Enclume Design Products, Inc., 24 Colwell St., Port Hadlock, WA 98339, *postage prepaid* within 20 days following a return authorization number (which may be obtained by telephoning the number at the bottom of this instructions) being provided to the customer by Enclume. There are no other warranties, expressed or implied. **THERE ARE NO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. ENCLUME SPECIFICALLY DISCLAIMS ANY AND ALL INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE PURCHASE OR USE OF ENCLUME'S PRODUCTS.**

ASSEMBLY AND INSTALLATION INSTRUCTIONS for PR1

Rack Assembly

- 1) If your rack is plated it is best to keep the tissue on during installation to avoid fingerprinting.
- 2) Attach the arms to the upper hanging rectangle, leaving the button head screws loose.
- 3) Place the arms over and on the outside of the lower rectangular base.
- 4) Insert the lower button head screws through the arms and the rectangular base positioning the arms squarely. Tighten the lower button head screws.
- 5) Square up the rack by aligning the arms so they are perpendicular to the upper and lower rectangles. Tighten the upper button head screws.
- 6) We recommend that you anchor your rack into the solid wood of ceiling joists or beams. Carefully measure the area where the rack is to be hung and install the ceiling screw hooks directly into the wood joists. If it is not convenient to hang your rack directly into wood joists you may use the DRYWALL Toggler anchors not included. The steel anchors are very strong and when installed in drywall will hold 200 lbs. each. Two anchors hold about 400 lbs.
- 7) Install the ceiling screw hooks. Your local hardware store can advise you if special hardware is needed for your particular kitchen.
- 8) The assembly is now complete. Distribute your cookware uniformly around the rack.
- 9) All of our hammered steel racks are finished with an industrial wax designed to give years of protection to the rack. Cleaning is easily done with a damp cloth. Dry thoroughly after cleaning. If a touch-up is ever needed we recommend a "Pledge" like wax product.
- 10) The care and cleaning of our copper and brass units must be done with a low abrasive cleaner such as "Flitz". Chrome racks are best cleaned with a good quality glass cleaner like "Windex". Our high quality plating will age & tarnish the same as solid material. A periodic cleaning will restore your rack to its original brilliance.

Grid Assembly

- 1) Slip the 6 grid brackets over the lower rectangular base with the "L" portion pointing to the inside. Center one bracket on each end and on the inside of each arm.
- 2) Place the grid on the brackets.
- 3) Hang your pot hooks from the interior squares only. **Do not** hang them from the perimeter or the cut portions of the grid. Distribute your cookware evenly.
- 4) The grid has been treated with a finish which will resist corrosion and tarnish. It can be cleaned with a damp cloth and dried thoroughly. Please do not use abrasive cleaners.

It is important that your rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
