BEAUTIFULLY CRAFTED CONFIDENT SUPPORT

METAL SUPPORT LEGS | Atherton

ATHERTON SUPPORT LEGS INSTALLATION INSTRUCTIONS

Installation Instructions Before You Begin

You should make sure all components are accounted for prior to starting installation. (4) Atherton Industrial Desk Legs, (8) support shelves, Mounting Screws.

Installation Considerations

Plan Your Installation - determine the type of material and the thickness of your material to be used to create your one of a kind desk/table. Determine the height at which you desire the final desk/table to be.

The Atherton Industrial Desk leg is designed to use one leg on each corner of the desk top.

Install Shelves - One shelf per leg should be installed at floor level. This provides the stability for the table. Attach the shelf to the leg with the short side facing upward using $\frac{1}{4}$ " fasteners. Two .375" slots are provided to attach the table to the floor if desired for additional stability.

At the above determined table height, attach the second shelf in the same manner as previously described. Multiple $\frac{1}{4}$ " holes are provided to have table height at the desired spot and add industrial style. Slots are provided again on the bottom of this shelf to be attached to the underside of the desk/table.

Set the desk/table top in place on the shelves.

Drill Pilot Holes - Once the top is set on the shelves, carefully drill pilot holes through the slots into bottom of top. (If using reclaimed wood, be sure to drill slowly so as not to split the wood).

****NOTE** - Take care that all pilot holes and fasteners used are not longer than the depth of your table or desk top so they do not protrude on the useable side.

Install Legs - Once your pilot holes are complete begin attaching fasteners through slots into underside of table. Take care not to overtighten fasteners. Overtightening can make the hole too large and actually loosen the fastener.

Enjoy Table - Final step is to enjoy your work and your new table. We are happy that you chose to use Federal Brace products. We would be thankful if you would send us images of your project. We enjoy seeing Federal Brace at work. Also, know that the highest compliment Federal Brace can be given is a reference from our customers to friends and family. If you have enjoyed your buying experience with Federal Brace please let someone know.
